1. 

Technical drawing showing a corner joint assembly. The drawing includes a vertical line and a horizontal line meeting at a corner. A dimension line labeled '1.' indicates the distance from a vertical dashed line to the corner. A dimension line labeled '2.' indicates the distance from the corner to a horizontal dashed line. A curved arrow points to the corner joint. The text '1x/2x' and '101862' is visible at the bottom right.

Se måttabell på första sidan.

Fast Skärmvägg:
1=C

A circular inset diagram showing a close-up of a device's internal slot. A small, rectangular connector labeled "1x 101877" is shown being inserted into the slot. A large black arrow points upwards towards the connector.

TACK FÖR ATT DU VALDE EN PRODUKT FRÅN MACRO DESIGN

Macro Design är ett svenskt företag som tillverkar duschar, badrumsmöbler och badrumstillbehör. När du väljer en produkt från Macro Design så vet du att du har gjort ett tryggt köp, har generösa garantier och din produkt kommer att hålla i många år framöver. För att hålla dina produkter i toppskick är det även viktigt att du vårdar och rengör dem regelbundet enligt anvisningarna.

Skötselråd för duschar

Glas

Effektivaste och även det miljövänligaste sättet att hålla glaset rena och fina är att efter varje dusch dra med en gummiskrapa. Rengör glaset minst varannan vecka med diskmedel eller mildt ättikbaserat rengöringsmedel. Använd svamp eller borste som inte repar glaset eller profilerna.

Mönstrade glas

Screenmönster skall alltid vara på utsidan av glaset. Rengör utsidan med ljummet vatten och ett mildt diskmedel. Använd ej produkter som bildar en skyddshinna på glaset då dessa medel kan upplevas som flammiga eller som ett rinnmönster i screentrycket. Macro duschar får inte rengöras med medel som innehåller aromatiska kolväten, syror, ammoniak, natriumlut eller klorin.
