*Instructions on back...*

# Installation

## Installation Instructions:

1. Before you begin, check to make sure the weapon is unloaded.
2. Loosen the two mounting bolts on the Firefield 45 degree mount with the provided Allen wrench.
3. Attach the 45 degree mount to the mount of a quad rail or upper receiver. Tighten the bolts between 45-65 pounds of torque. Do not over tighten.

# Troubleshooting

Never ship back a product without getting proper authorization beforehand. Doing so could result in losing the product due to a multitude of reasons, i.e. sending it to the wrong address and other problems associated with unexpected packages.

1. If sight does not hold zero, check that the mount is securely attached. Also verify the weapon sight is mounted securely. If there is any shifting, retighten the mounting system according to the mounting instructions but do not over tighten.
