TRUCKSTAR® LED

Range: H7-LED

LED accessories

LEDiving® SMART CANBUS

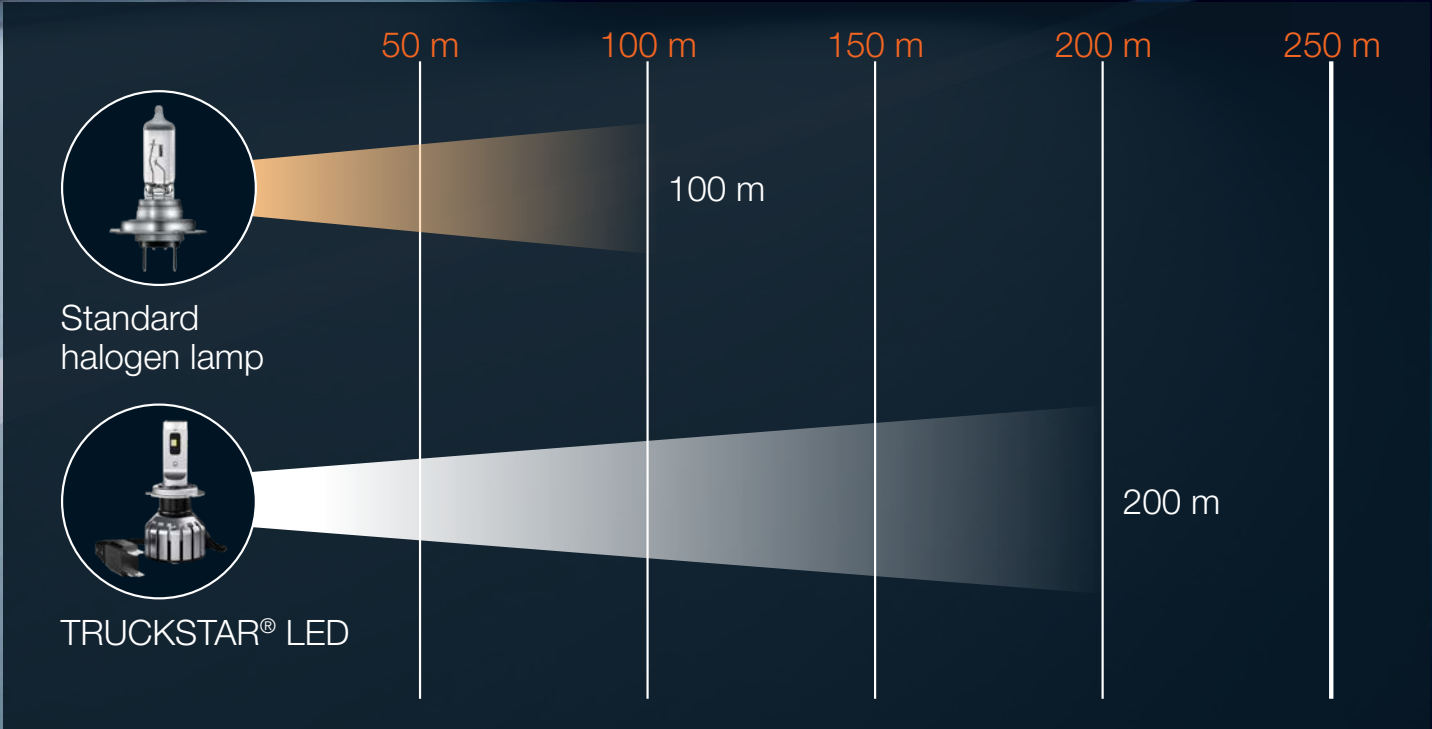

Enables compatibility with vehicle electronics

After installing TRUCKSTAR® LED, error messages may occasionally appear in some vehicles. We therefore recommend using the accessory components listed in the compatibility list for the respective vehicle model. In rare cases – depending on the vehicle equipment and engine type – error messages may also occur in vehicles that are not explicitly listed in the compatibility list with accessory components. Please do not hesitate to contact us if you have any further questions – using the contact form: [Light is OSRAM](#).

After installing the TRUCKSTAR® LED in your vehicle, error messages may occasionally occur. We recommend that you use the SMART CANBUS ADAPTER indicated in the vehicle list for your specific vehicle model. Please note that in rare cases, depending on the vehicle equipment and motorization, error messages may also occur in vehicles that are not explicitly listed with Smart Canbus in the vehicle list. An error message that occurs does not represent a product defect and does not necessarily justify a complaint. If you have any further questions, please do not hesitate to contact us. You can reach us at automotive-service@osram.com.

If you own a vehicle that is not listed in the compatibility list, but has an already approved headlight registration number – contact us directly using the contact form: [Light is OSRAM](#).

-
- 1) Approved LED light source – only applies to the respective countries in which there is approval or to which an equivalent approval applies, and the vehicle models and light functions currently listed in the compatibility list. For more details see www.osram.com/nb-led.
 - 2) Compared to minimum ECE R112 requirements. Additionally, 50% less glare
 - 3) Compared to halogen lamps
 - 4) Refer to www.osram.com/am-guarantee for precise conditions
 - 5) OSRAM offers LEDriving® SMART CANBUS units to avoid error messages on the on-board computer when using LED lamps. Only the combination of TRUCKSTAR® LED lamps in conjunction with the official OSRAM accessories – LEDriving® SMART CANBUS – is approved
 - 6) Until end of production
 - 7) The optional use of LEDriving® SMART CANBUS units in case of an error message from the on-board computer is recommended depending on the vehicle equipment. Error message can be acknowledged by confirming twice with OK on the on-board computer. If an error message appears (e.g. when unplugging the standard lamp), a CANBUS is mandatory. Failure to observe this may result in damage to the control unit. No liability is accepted for any consequential costs arising from this.
